

In the first to see this double Jordan Melo M10 of time, perhaps a lot of people's first reaction is the Air Jordan XX8, indeed, in the end Jordan Melo M10 with Air Jordan XX8 has the same purpose, but is rich shoe body The details of the shoes is that the identity of the owner. In our impression, Anthony has been a steady generous shoes, but Jordan Melo M10 appearance but subvert our original impression, more slender shoes great visual impact, with uppers made using a variety of materials, level sense, and as the biggest bright spot, molded rear pieces to full-grain nubuck leather made in TPU heel stabilizer, printed a decade ago specifically for the first JORDAN MELO shoes originally designed melon The handwritten signature logo. It is also to commemorate Anthony and Jordan Brand to join for 10 years. "molded from the foot to the small size, Tinker and I focus on every detail. We have carefully looked at the evolution of design over the years, that inspired the evolution then to now. Then we obtained linked to the development of this decade, I devised this far through the most powerful shoes." - Carmelo Anthony In addition to appearance, Jordan Melo M10 technology configuration is outstanding, by the legendary shoe designer Tinker Hatfield and Anthony together create the Jordan Melo M10 uses almost the same Air Jordan XX8 technology configuration, the integration of Jordan Brand signature The FLIGHT PLATE technology, through compression and deflection provides the fastest response speed, the maximum release around the palm Zoom Air insole elastic, and lace holes of dynamic fit technology can adjust according to Anthony foot movement, from the locking the foot to fit the role, with a handwritten signature logo Melo TPU heel stabilizer can provide just the right stability and support. We can say that the new Jordan Melo M10's performance is the best Jordan Melo series, all designed just for now the best "melon" Anthony. initial "small melon" Jordan Melo 1.5 As Anthony's first signature shoe, drawing on the classic Air Jordan 1 and Air Jordan design elements 2, although the idea of ??mixing we had too, but Jordan Melo 1.5 are not like those shoes concept of conventional mixing, simply stitching the classic elements, but the essence of the Air Jordan 1 and Air Jordan 2 all injected into the Jordan Melo 1.5 above, sleek design and then Anthony's image coincides technology configuration with a full charge of Air Sole Technology, stable at ease. In addition, Jordan Melo 1.5 did not use in the future Jordan Melo series are named, but the .5 ideas into Anthony's first signature shoe being, perhaps the time is not mature enough, Anthony, and perhaps only this way, is the true successor to Jordan's mantle. Today, Jordan Melo 1.5 engraved reunification, we lamented the passage of time at the same time, look at Anthony, he had not the Sentimental rookie, scored as Tannangquwu general, is leading the home team out of the woods.
